

This summer I had the chance to intern at Whisonant Electrical Services. The overall experience was priceless. From riding around to different job sites and working out in the field, I enjoyed every day of work. The company treats their employees so well. I am blessed to have had a job with them this summer!

Each day, Dale and I would make bids on different jobs.

Daily Calendar

To get the correct numbers for the bids we would print the plans out.

Counting light fixtures for quotes and bids

(left) Printer used to print the electrical drawings and plans

(Right) Drawings and plans that

(left) under cabinet lighting that I installed

(right) dedicated receptacle from panel box, under the house to the kitchen for the stove and oven

Thank you to everyone who made my internship possible
